Sri Eshwar College of Engineering	B.TECH(AI&DS)	SGPA(8.2)	2023-2027
Stanes School CBSE	HSC	73.5%	2021-2022
Stanes School CBSE	SSLC	89%	2019-2020

INTERNSHIPS

AI/ML – Internpe

May 2024

Applied web development and machine learning to solve real-world problems, focusing on data preprocessing, optimization, and collaborative AI design.

MERN STACK - ZSOFT

January 2025

Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js, integrating RESTful APIs and deploying via Netlify & Render.

AI AGENT

July 2025

Developed intelligent LLM-based agents using LangChain and OpenAI APIs for automation, planning, and decision-making tasks.

PROJECTS

DRISHYA YATRA (ISL Sign language Converter):

Developed Drishya Yatra, a mobile app for ISL conversion in Gujarati to support deaf and mute students. It interprets Gujarati alphabets, words, and sentences using Indian Sign Language, featuring speech-to-sign translation and subject tutorials. Integrated data analytics to assess student learning outcomes.

Tech Stack: Flutter, Python, Flask, MongoDB/Firebase, Speech Recognition API, NLP, Data Analytics.

BLOCKCHAIN BASED VOTING SYSTEM:

Developed a secure and transparent e-voting system using React 18, JavaScript, and simulated blockchain. Implemented wallet-based authentication, real-time vote validation, and an immutable ledger for secure storage. Designed a modern UI with Tailwind CSS and separate voter/admin interfaces for efficient election management.

Tech Stack: MongoDB, JWT Authentication, Blockchain Simulation, Web3 Wallet Authentication, REST APIs.

MARKETMIND AI – AI POWERED MARKET INTELLIGENCE PLATFORM:

Built a multi-agent AI system that automates market research by analyzing competitor strategies, customer reviews, regulatory changes, and financial news. Leveraged Retrieval-Augmented Generation (RAG), vector search, sentiment analysis, and LLM-based insights to deliver risk detection, opportunity identification, and executive-level reports.

Tech Stack: Python, FastAPI, LangChain, Gemini, FinBERT, PostgreSQL, ChromaDB/Qdrant, SQLAlchemy, NLP, RAG, Streamlit, REST APIs, LangGraph, AI Agent.

CERTIFICATIONS

Machine learning React JS Gen AI Udemy	2025
Deep Reinforcement learning using python Advanced Power BI Udemy	2025
Python programming _Programming in C language IDM Tech Park	2023

ACHIEVEMENTS

Book Chapter Publication : Co-Author in book chapter publication in IGI Global | [document](#)

Leetcode :Global Contest rating 1424 | 50 days batch |100 days batch|Solved more than 250 problems.

Hacker rank : 5 Star Coder in C++ Language | 3 Star Coder in SQL| 2 Star Coder in Java.

Student Mentor :Selected as Student mentor and Mentoring vertical administrator

SKILLS

Languages- C| Java | C++ |Python| JavaScript

Query Languages- MySQL | MongoDB

Tools- VS Code | IntelliJ | GitHub | Git |AWS |Azure

Core Concepts- DSA | OOPS | DBMS | CN | OS|Blockchain

Web Technologies- HTML | CSS | JavaScript
